This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's sur-face, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscers and excreting organs of the body. The liver becomes torpid and falls so secrete not only this virus, but also the bile from the blood. tral organs and rushes to the surface, as if is another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt May 16, 1860. Important to Cotton Planters SOMETHING ENTIRELY NEW IN THE HISTORY OF THE

exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of Faven and Agua. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an COTTON GIN which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disarder with perfect certainty. And it does more, or rather does what is of more service to those sub-ject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who are it for from the system. thom the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in fleath although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Periodical Headache, or Billious Headache, Billious Fevers, Neuralgia, Rheumatism, Gout, Bilindusess.

Periodical Headache, or Bilious Headache, Bilious Revers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Barache, Catarch, Asthma, Palpitations, Painful Affections of the Spleen, Hysterica, Colic, Paralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Ague Cuan" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretiories to expel the virus from the system; and this it accomplishes by stimulating the excretories to expel the virus from the system; and
these organs by degrees become habited to do this
their office of their own accord. Hence arises what
we term acclimatation. Time may accomplish the
same end, but often life is not long enough, or is
sacrificed in the attempt, while this "AGULCURE"
does it at once, and with safety. We have great
reason to believe this is a surer as well as safer
remedy for the whole class of discourse which September, 15, 1858.
